

Consulting assistance for customers who use NOBB

The content and quality of data in NOBB is a prerequisite for digital collaboration in the construction industry.

In order to assist our customers with entering, updating and using the product information in NOBB, Norsk Byggtjeneste AS offers services that are invoiced after the completion of assignments. In larger projects, we can also offer participation and advice in some cases.

Services we offer

- Training in NOBB / in-company courses
- Registration and updating of product information
- Updating of prices
- Registration of photos and documentation
- Registration and updating of product properties
- Training in NOBB contracts
- Training in Byggtjeneste shipping services
- Lectures and advice for management / company (by appointment)

Consultancy assistance for the registration of information in NOBB (in Excel or another agreed format) presupposes that the correct data is given by the supplier (in accordance with NOBB regulations).

Information required is confirmed with the supplier in each individual case.

Prices

Consulting assistance - NOK 1579,- per hour ex. VAT.

Travel costs are paid in addition and are in accordance with the national rate/s.

The supplier must confirm the assignment in writing. An e-mail must be sent to support@nobb.no before work is commenced.
